

# CUTE PROJECT

O N L U S

## South Africa

### Volunteers Needed

The Cute Project Onlus, an Italian NGO, focuses on training local medical staff in developing countries in plastic and reconstructive surgery, mostly for people with contractures following burns, some congenital deformities and scars.

Thusfar their missions have mostly been annually to Uganda and Benin, with each mission being 2 weeks long.

Since it's inception in 2012, a South African OT has accompanied the team on all of their missions providing intra-operative splinting, pressure garments, scar management, other post-op care and training of local staff . South African therapists are very well trained to work in low resource environments and are thus an asset to the team.

***We are looking for volunteers to be part of our team!***

(For practical reasons therapist should preferably be based in Gauteng)

### Responsibilities:

Splinting  
Making pressure garments  
Training Staff  
Giving lectures

Post-op care  
Fund raising  
Team Support  
Prevention Programmes

*If you're interested in volunteering and would like to find out more, join our online introduction on*

***Monday 14 April at 19:30***
